

HSBC Taiwan Mobile Banking App

How to activate Digital Secure Key

- Are you ready to make logging on so much easier?
- A fast, easy and secure way to log on to your HSBC accounts – all in the palm of your hand
- Activate your Digital Secure Key now with a few steps
- To get started, log on your HSBC Taiwan app
- Click “Confirm and continue” to activate your Digital Secure Key or replace your physical secure device.
- Your Digital Secure Key is now activated successfully!
- You can now also enable biometric log on for your HSBC Taiwan app
- Now access Online Banking quickly and easily with Digital Secure Key
- Steps to generate online banking security code
- Go to the Log On screen of the HSBC Taiwan app
- Click “Generate a code”
- Choose the code type you would like to generate – Log on to online banking, Verify transactions, or Re-authentication code
- Authenticate with your 6-digit PIN or biometrics
- Security code is now generated!
- Use the code to complete the Online Banking verification before the code is expired. Log on to HSBC Taiwan online banking
- Confirm the transaction
- Complete the re-authentication
